

Giving You a Strong Competitive Edge Worldspan Go!™

LOOKING FOR NEW WAYS TO WORK SMARTER AND FASTER?

If your number one goal is to deliver the most exceptional travel experiences to every customer in the fastest, most cost-efficient ways – we share your mission. In fact, Travelport exists to help you succeed. We understand the challenges you face today, and that makes us a better partner who can help you:

- > Rise above the competition
- > Find new revenue streams and value-added selling opportunities
- > Grow with one-stop access to the travel content and pricing travellers demand
- > Increase commissions through traditional and Web suppliers
- > Lower your costs per booking through advanced booking efficiencies
- > Shorten agent learning curves and increase total productivity

Today, higher revenues mean more choices

More than anyone else, you know how important it is to today's travellers to have a range of alternatives. You know they're good at finding their own options and how significant the details have become. Where will they sit on the plane? What does the hotel room look like? What's the make and model of the rental car? How about nearby restaurants? Worldspan Go! gives you a competitive edge by providing all of the answers.

Whilst travellers must tap multiple sources to build a complete trip, you have access to visual and descriptive global content through one all-inclusive portal. Go! helps you close sales fast. Travellers like receiving instant access to personalised itineraries at Travelport ViewTrip™ (www.mytripandmore.com). Our agency partners appreciate how Go! supports daily workflow by interfacing itinerary data to reporting tools and back-office systems.

You will succeed with Worldspan Go!

Worldspan Go! offers the technology and support you need to grow and prosper. It's the progressive, browser-based desktop solution that helps today's agencies work faster and smarter, and it is completely portable. Travel agents can log in via the Internet from anywhere to create and issue tickets using their own customer profiles and productivity scripts, easy functionality and the most advanced travel planning and management capabilities.

Leadership matters

Worldspan Go! leverages our e-commerce expertise, the strengths of Travelport GDS and our supplier relationships worldwide. The combination brings you the all-embracing Go! desktop environment, with unparalleled content from the traditional and online worlds, and access to every facet of travel management.

CAN YOU OPERATE WITH ANYTHING LESS IN TODAY'S COMPETITIVE ENVIRONMENT?

- > **Expansive content** from the Worldspan global distribution system (GDS) and the Web – the world's airlines, hotels, car rental locations, tours, cruises, rail lines, ground transportation, insurance, theatre and entertainment, excursions, attractions and more
- > **Unmatched accuracy** in global fares, pricing and rules
- > **The latest shopping, pricing and booking tools** in use by leading travel Web sites
- > **A complete spectrum of published, private, consolidator and Web fares** in one easy-to-read, bookable display
- > **An industry first Web-based negotiated fares** tool that lets you manage private fares internally
- > **Leading low-fare shopping** through the industry's first multi-server-based low-fare and flexible shopping tools
- > **Unrivaled re-pricing tool** that automates the complex task of re-pricing and re-issuing tickets
- > **Interactive desktop tools** that make shopping for global hotels, car rentals and low fares simple through intuitive graphical screens
- > **More than 100 free scripts** that accelerate reservations processing, plus the flexibility to write scripts to enhance your productivity
- > **Advanced connectivity and customisation** that let you install and access Go! over the Internet, customise your desktop and more
- > **World-class online learning and development resources** to help your agents become proficient and unleash the full power of Go!
